

## Lowerhouse Junior School Pupil Conferencing (SLT) – October 2025

### **Year 5 – Oak**

|   |   |
|---|---|
| <p><b>Do you enjoy lessons in Year 5? Tell me why.</b></p> <p><b>What are the key expectations set by adults in your class around attitudes to learning and your work?</b></p>                                    | <p>– I like lessons in Year 5 and I really like Science because we carry out lots of experiments and activities. We are reminded about “One Voice” when people are talking as well as cursive/joined handwriting in our work.</p> <p>– Lessons in Yr 5 are exciting because in lessons like English, Mrs Wallace takes time to read “Nowhere Emporium” in times we had which was great as the book is exciting. We are expected to take care in our handwriting and produce exciting sentences in independent writing.</p> <p>– Yes because we get to learn new things and I am getting better writing in more detail. In class we follow “One Voice” and to try our best in class.</p>   |
| <p><b>How does school keep you and children safe and around expectations around school?</b></p>   | <p>– In school we have DSLs who teachers talk to if they are worried about children. They wear an orange thing around their neck. We also have our sensory room to support children feel calmer.</p> <p>– We have our nurture room and therapy dog in school that helps people feel better and back into class.</p> <p>– School is always locked and safe to stop intruders come in. People who are in safely have visitor stickers on.</p>   |
| <p><b>In Science you have been covering Materials and Properties. Can you talk me through what you have learnt?</b><br/><i>(In Science we have been learning about Materials. Did you know .....?)</i></p>        | <p>– In Science we have been learning about materials. Did you know we found out that bubble wrap is the better insulator as it had lots of air bubbles to keep things warm?</p> <p>– In Science we have been learning about materials. Did you know a conductor lets electricity or heat travel through them?</p> <p>– In Science we have been learning about materials. Did you know that we change one thing when doing an investigation? We tested different sticky tapes using our baskets in class.</p>   |
| <p><b>In Geography you have been learning about South America. Can you talk me through what you have learnt?</b><br/><i>(In Geography we have been learning about the South America. Did you know .....?)</i></p> | <p>– In Geography we have been learning about South America. Did you know that people in Rio De Janeiro throw a carnival each year when people dress up and have amazing masks? This links to our Art too as we have been making carnival masks.</p> <p>– In Geography we have been learning about South America. Did you know in South America there are human features (Christ the Redeemer statue) and physical features (Rainforest)?</p> <p>– In Geography we have been learning about South America. Did you know the statue of Jesus in Rio is the biggest statue in Brazil?</p>   |
| <p><b>Think of a topic you have covered in Maths during Year 5. Can you share what you have learnt?</b><br/><i>(In Maths we have been learning about ..... Did you know .....?)</i></p>                           | <p>– In Maths we have been learning about column addition and decimals. Did you know if the answer is larger than 10 we exchange to the next column and we must add place holders when doing this with decimals? (Solved <math>3.64 + 2.7 = 6.34</math>)</p> <p>– In Maths we have been learning about column subtraction and decimals. Did you know if we exchange and there is a zero in the next column we must exchange from the next column to make the 0 a ten. (Solved <math>3,507 - 2,869 = 638</math>)</p> <p>– In Maths we have been learning about bar charts. Did you know that the bigger the bar means more people had chosen this from the table? There are numbers at the side we use to work out how many.</p> |
