Introduction

As part of the primary National Curriculum learning a foreign language (MFL) has become a requirement for children within KS2. Lowerhouse Junior School has chosen to focus on a 'main language' of French, whilst also offering a range of culturally enriching experiencing throughout the year, that will develop children's enjoyment and knowledge of a variety of languages.

Aims

We aim to develop children's experience of language acquisition and encourage curiosity about languages. To develop their understanding of what they hear and read, and have an ability to express themselves in speech and writing; extend their knowledge of how language works, grammatical constructs, syntax and explore similarities differences between the French and English languages; develop an understanding of French phonics and accurate pronunciation, leading towards increased fluency when speaking French; and strengthen their sense of identify through learning about culture in Francophone and other countries; comparing them with their own culture.

Teaching and Learning Overview

Teaching is in line with the recommendations of the National Curriculum and local FL experts, taking into account the individual and differentiated needs of children. It acknowledges and celebrate the different experiences, strengths and interests of the children whilst also complying with the requirements and guidance of inclusion.

The national curriculum for languages aims to ensure that all pupils:

-  Understand and respond to spoken and written language from a variety of authentic sources
-  Speak with increasing confidence, fluency and spontaneity, finding ways of communicating what they want to say, including through discussion and asking questions, and continually improving the accuracy of their pronunciation and intonation
-  Can write at varying length, for different purposes and audiences, using the variety of grammatical structures that they have learnt
-  Discover and develop an appreciation of a range of writing in the language studied.

Organisation

French is taught in a whole class setting in KS2, by the class teacher/HLTA for an average of 30 minutes per week over the year.

Teachers plan together using Culturetheque, a scheme of work by The Primary French Project. The scheme and supporting materials have a strong focus on grammar (to support and reinforce the stronger focus on English grammar in the National Curriculum) rather than vocabulary learning.

The lessons are designed to motivate children from the first moment, are mainly practical and always build on previous learning to ensure that children feel success and see their own progress. They have clear, achievable learning objectives and incorporate different learning styles. SEN children have access to the curriculum through variation of task, grouping or support from an adult.

French is revisited in short sessions throughout the week to consolidate knowledge and ensure new language is retained. French lessons provide a variety of sources to model the language, use games and songs to maximise enjoyment and make as many connections to real life situations as possible.

Lessons focuses on speaking and listening. However, children also record their learning in French books.

The Culturetheque modules are as follows.

Year 3	Niveau bleu (module 1-6)
Year 4	Niveau blanc (module 1-6)
Year 5	Niveau rouge (module 1-6)
Year 6	Niveau tricolore (module 1-6)

Resources

Culturetheque resources, including guide lesson PowerPoints and plans, are available on the School's server.

Assessment

Informal assessment of progress will be made by the language provider during lessons through questioning and oral feedback. The Subject Leader monitors the effectiveness of the procedures implemented. Year 3 and Year 5 will trial an assessment tool in the Autumn term, after which results will be analysed and discussed with SLT and if effective will be introduced across KS2.

Monitoring and evaluation

The MFL Subject Leader monitors planning and delivery and provides support for using the Culturetheque resources. Discussions are held with children from every class on a termly basis to gain feedback on their learning and to evaluate effectiveness and enjoyment. It also provides children with a chance to impact the teaching and learning of the subject.
